Company Overview

Carbonite provides a complete Data Protection Platform for businesses and the IT professionals who serve them. From backup and disaster recovery to data migration, high availability and endpoint protection, our flexible solutions can be tailored to meet the data protection needs of any business.

Carbonite solutions are strengthened by our outstanding team members and through strategic acquisitions, like our purchase of leading endpoint protection provider Mozy Inc., and high availability specialist DoubleTake Software. Our laser focus on security and our track record of meeting customers' unique requirements are two more reasons why businesses around the globe depend on Carbonite.

Carbonite is made up of over 1,000 smart and dedicated individuals who work at locations all over the world. We foster a thriving, dynamic environment rich with inventive minds and entrepreneurial spirit. With our robust Data Protection Platform, we are well-positioned in a rapidly growing market. We're currently looking for talented people to join the Carbonite team both in the U.S. and globally. **Are you ready to grow with us?**

Carbonite, Inc. is an equal employment opportunity and affirmative action employer does not discriminate based upon race, color, religion, sex, national origin, age, genetic information, gender identity or expression, sexual orientation, protected veteran status, status as a qualified individual with a disability, or any other characteristic protected by law. Upon request, accommodations will be made available during the recruitment process for applicants with a disability. If you require accommodations, we will work with you to provide or arrange for the provision of suitable accommodation wherever possible. All qualified applicants are encouraged to apply.
